

MANISH BARAL

Senior Full-Stack Engineer

Dubai, UAE • mail.aarman@gmail.com • +971 547386975
<https://www.linkedin.com/in/baralmanish/> • <https://github.com/baralmanish>

PROFESSIONAL SUMMARY

Full-Stack Engineer with over nine years of experience building distributed systems, optimizing backend services, and delivering high-performance user interfaces. Expert in the React ecosystem (Next.js, React Native), Node.js (Fastify, Express), and Laravel. Proven track record of resolving critical performance bottlenecks, including reducing API latency from two minutes to ten seconds, and leading engineering teams of up to eight people to scale robust product architectures.

TECHNICAL CORE

Backend: Node.js (Express, Fastify), Laravel, GraphQL, Redis, Docker, AWS

Frontend and mobile: React, Next.js, React Native, TypeScript

Databases: PostgreSQL, MySQL

WORK EXPERIENCE

Teletronics - Dubai, United Arab Emirates

October 2024 - Present

Senior Full-Stack Developer

- Lead the full-stack development, architectural optimization, and mobile delivery of enterprise systems using Fastify, Node.js, and React Native.
- Delivered a high-performance React Native application with 90% code sharing between platforms, accelerating the feature release cycle by 40%.
- Engineered high-concurrency microservices using Fastify and PostgreSQL, handling 15k+ concurrent requests/sec and reducing cloud infrastructure costs by 20% through improved resource utilization.
- Implemented Redis caching layers that improved data retrieval speeds by 50%, ensuring sub-100ms response times for the global user base.

AP Logic Inc. - California, United States

September 2022 - October 2024

Senior Full-Stack Developer

- Designed and integrated web applications using Laravel and Node.js backends, collaborating with distributed engineering teams to link technical architecture with product goals.
- Established software coding standards, tooling configurations, and automated testing protocols across the team to maintain code quality and streamline deployment pipelines.
- Evaluated emerging web technologies and performance optimization strategies for seamless frontend-to-backend system integration.

FleetPanda - California, United States

August 2018 - September 2022

Lead Software Engineer

- Managed core software engineering modules, serving as the main technical point of contact for cross-functional teams and project stakeholders.
- Mentored junior developers in React.js, modern CSS layout techniques, and JavaScript architecture to elevate team execution and code quality.
- Modernized legacy application components to clean code practices, improving system performance and reducing technical debt.
- Collaborated with engineering and QA teams to diagnose execution bottlenecks, isolate bugs, and implement reliable web solutions.

CodeBee Technology - Kathmandu

February 2017 - July 2018

Senior Software Developer

- Engineered API-centric, scalable web architectures using Laravel and relational databases to support reliable client-facing products.
- Led software modules as a technical subject matter expert, guiding development timelines and clarifying technical requirements.
- Collaborated with QA and product teams to map out test scenarios, execute integration testing, and resolve production bugs.

Extreme Websoft LLC - Kathmandu

May 2016 - January 2017

Senior Software Developer

- Refactored, modularized, and updated legacy systems to modern Laravel frameworks, reducing server overhead costs and increasing code maintainability.
- Designed clean database schemas, custom system components, and core backend procedures for enterprise integration.
- Gathered technical specifications from project documentation to build custom system lifecycle flows from initial requirements to staging deployment.

Minds - Web Solution Company - Sharjah

June 2014 - March 2016

Web Project Manager

- Built targeted web solutions using CodeIgniter, HTML, CSS, and jQuery, onboarding 23 enterprise real estate accounts onto an in-house application.
- Handled project sprint timelines, managed client delivery specifications, and addressed technical architecture risks directly.
- Recruited, staffed, and managed internal design and software engineering talent to meet operational product deadlines.

iNepal - Web Solution Company - Kathmandu, Nepal

February 2010 - May 2014

Senior Web Designer

- Developed custom frontend layouts and responsive web interfaces using HTML, CSS, JavaScript, and jQuery.
- Built customized themes, specialized scripts, and functional application modules on top of WordPress and PHP frameworks.

Infowebteck Pvt. Ltd. - Kathmandu, Nepal

June 2007 - January 2010

Web Designer

- Built responsive web templates and custom visual assets tailored to client specifications.
- Diagnosed and resolved cross-browser compatibility issues and interface bugs to maintain layout consistency.

EDUCATION

Higher National Diploma, Computer Science

Demont Institute of Management and Technology, Dubai, UAE

September 2024 - June 2026

International Diploma in Computing, Computer Science

Informatics College, Kathmandu, Nepal

May 2009 - August 2010

High School Diploma (+2 Engineering Science)

Vijaypur Higher Secondary School, Dharan Nepal

2005 - 2007

LANGUAGE SKILLS

English, Nepali, Hindi

HOBBIES

Travelling | Cooking | Learning and improving skills
